

How to Enter Player Attendance and Stats (Mobile)

1 Login to <https://passport.mygameday.app/>

2 Click "Results Entry"

Membership & Competition Management

Click here to access your organisation database.

Results Entry & Live Scoring

Direct access to results entry and live scoring for desktop, tablet and mobile.

Websites

Click to access your Standard and Advanced Website permissions. Authorised users are added automatically to Passport records.

3 Click "Post Game" Tab then click your Team Name Player Stats Heading

4 Click the dropdown arrow to enter information for players who didn't play this game, and those who pitched and caught.

Roles	
Did Not Play 	<input type="checkbox"/>
Total Pitches (P)	<input type="text" value="0"/>
Innings Pitched (P)	<input type="text" value="0"/>

8

Click the "DefensiveOuts(F)" field and enter the number of defensive outs for each player for when they were in the field.

For run-limitation-shortened innings (4 across, side away), each player on the field gets **3 defensive outs**.

Players subbed out with another player while on the field, only get **the number of defensive outs while they were on the field** e.g. a player subbed out when there is 1 out, will only get 1 out and the player entering the field should get the remaining 2 (subject to further fielding changes).
